GMDC-GVT focuses on several key areas of development, including education, healthcare, livelihoods, women's empowerment, and environmental sustainability. The organization works closely with local communities and stakeholders to identify their needs and priorities and designs its projects and initiatives accordingly. **One of the key thrust areas of GMDC-GVT is strengthening healthcare in areas of its operations - addressing gaps by improving access & availability.**

GMDC-GVT has identified 4 healthcare projects for improvement of healthcare services to the population living in the catchment areas of GMDC's project operations.

Project 1 - Akrimota Thermal Power Station (ATPS) Hospital, Lakhpat, Kutch, Gujarat

Project 2 - GMDC Health & Maternity Clinic at Fluorspar Project-Kadipani, Chhota Udepur District,

Gujarat

Project 3 – GMDC Health Clinic at Coal Project- Sundargarh, Odisha

Project 4 – GMDC Health Clinic at Coal Project- Angul, Odisha

About the planned health sector projects of GMDC- GVT

The planned healthcare projects will go a long way in improving the access and availability of healthcare services of the staff and general population residing near the project operations of GMDC. Details of the projects are provided below.

Project 1 - Akrimota Thermal Power Station (ATPS) Hospital, Lakhpat, Kutch, Gujarat

1. Akrimota Thermal Power Station (ATPS) at Lakhpat is situated in the western most part of Kutch district on the banks of Kori Creek (150 kms from Bhuj). Currently there is a hospital setup within ATPS Plant which needs revival. The existing hospital serves as a crucial source of medical and healthcare assistance for individuals residing in ATPS residential communities, as well as the surrounding region within a radius of 20 km. However, the healthcare indicators in this area have been extensively documented as services requiring significant improvement with service assurance, characterized by limited access to healthcare services and persistent concerns regarding the availability of advanced medical facilities.
2. Patients in need of specialized care and diagnostic services are compelled to travel to Bhuj, resulting in significant treatment delays and, in some unfortunate cases, even loss of lives. Hence, it is imperative to expedite the transformation of ATPS Hospital into a higher-order medical center capable of providing comprehensive care without the necessity of transferring patients to distant secondary care centers.
3. This urgent upgrade should be approached systematically and cost-effectively through the implementation of a hybrid healthcare service delivery model, combining limited onsite care provisions with the efficient utilization of information and communication technology (ICT) and Teleconsultation with specialized Doctors. Such an integrated approach will optimize healthcare delivery, ensuring that patients receive timely, quality, and appropriate care while minimizing the need for long-distance transfers.
4. The nature of the project is envisaged to be Up-gradation of infrastructure, in order to enhance functionality, improve efficiency, and introduce essential new medical services.
5. GMDC- GVT intends to upgrade the existing infrastructure by outsourcing its operations and maintenance (O&M) to a reliable partner. This strategic decision aims to optimize resource utilization and ensure the provision of high-quality healthcare services.
6. GMDC- GVT intends to setup a multi-speciality hospital up to 20-25 beds including ICU facility ATPS colony in Lakhpat block of Kutch district. The current facility is spread out in 17,000 sq feet

affected area is about 32,000 in 19 villages while Kawant block is 15 km from Kadipani and has total population of 2,10,500.

2. Currently, GMDC has the non-operational dispensary unit located outside the GMDC Colony next to the PHC-Kadipani. The Availability of doctor is on irregular basis in PHC. Services at Kadipani are limited and patients are sent to Kawant CHC (15 kms far-away) or private facility at Chhoutaudepur/Vadodara for services such as x-ray and sonography, pathology testing related to kidney or viral infections such as dengue.
3. The Existing Dispensary unit has Ground Floor and First Floor. The GMDC Health Clinic brings health care facilities in the surrounding area near to their village (with in the distance of 4-5 Km Range) that otherwise do not have practical access to health services. The GMDC Health Clinic will also help to lessen the burden on public health centers and support these services as increased demand outstrips the capacity of existing Health Centers.
4. GMDC Health Clinic's primary objective is to provide primary and preventive healthcare services and maternal health services at the Kadipani Project Location for the GMDC Staff deputed at the Project location, healthcare services at the doorstep of communities residing in the far-flung and remote area of Kawant Block in Chhotaudepur district.

Existing Infrastructure of GMDC Dispensary:

The total area of GMDC Dispensary at Kadipani is of 2000 sq. feet. The ground floor unit has Doctor room, X-ray room, 4 rooms, 2 Halls, WC and Bathroom. The first floor has 3 BHK Quarter for Doctor/Staff. Only the OPD Room is operational, but the X-ray machine and ECG Machine are in non-working condition and Labour room too is not in use. There is an unavailability of diagnostics and diverse pathology services and specialized Doctors.

The plan layout of the existing dispensary unit is as below.

Project 3 – GMDC Health Clinic at Coal Project- Sundargarh, Odisha

1. Recently, GMDC has emerged as the highest bidder for two of Odisha's mines in the recent coal block auction by Ministry of Coal. Odisha's Burapahar and the Baitarani West blocks are now under GMDC.
2. As a part of it's CSR obligations, GMDC plans to establish a health clinic in the Hemagiri block of Sundargarh district to provide healthcare services to the mining affected population of the block. The existing healthcare facilities in the block are very spread out and the planned GMDC Health Clinic will significantly improve availability of healthcare services to the local population.

Project 4 – GMDC Health Clinic at Coal Project- Angul, Odisha

1. Recently, GMDC has emerged as the highest bidder for two of Odisha's mines in the recent coal block auction by Ministry of Coal. Odisha's Burapahar and the Baitarani West blocks are now under GMDC.
2. As a part of it's CSR obligations, GMDC plans to establish a health clinic in Chhendipada Block of Angul district. The block has a total population of 103,804 as per the Census 2011. In 2011 there were a total 24,523 families residing in Chhendipada Block.
