Business Operations

GMDC has achieved a significant milestone by crossing a market capitalization of ₹20,000 crore. This reflects strong investor confidence, robust financial performance, and positive market sentiment around the company's growth prospects. Reaching this valuation marks the company's growing stature in its sector and the broader equity market. Sustained performance and strategic execution will be key to maintaining and building on this momentum.

GMDC is proud to be certified as Great Place to work, a reflection of our strong workplace culture, employee-centric policies, and commitment to inclusion, trust, and continuous growth. This recognition reflects our efforts to create a supportive, engaging, and empowering environment where people thrive both personally and professionally.

Our Commitment for Sustainability

On the occasion of International Coastal Cleanup Day, GMDC's Akrimota Thermal Power Station (ATPS) organized a meaningful community event at Nani Chher Beach. The initiative brought together our staff, their families, children, and partner contractors, all united with one purpose — to spread awareness about marine conservation and take real action by cleaning the shoreline. Together, we: Cleared plastic waste and litter from the beach. Educated families and children about the importance of preserving our coasts. Reinforced GMDC's commitment to sustainability and community partnership.

Our Commitment for Sustainability

The Shyamji Krishna Varma Memorial in Mandvi, Kutch pays homage to a freedom fighter who took India's struggle for independence to global soil through India House and The Indian Sociologist. His legacy of courage and sacrifice continues to inspire the nation. Maintained by GMDC, SKVM is not just a site of remembrance but a place that connects young minds with India's patriotic past. Situated close to the calm shores of Mandvi Beach and the historic town, it stands as a symbol of pride, resilience, and inspiration.

545 students from Navodaya Vidyalaya, Dumra (Naliya) visited SKVM, exploring history, culture, and values that continue to inspire generations.

GMDC has undertaken Project Navjivan Vann at Umarsar Lignite Mine—60,000 saplings of 10 native species, spread across 25 hectares of reclaimed land. It is more than greening; it is about restoring balance, fostering biodiversity, and shaping a healthier environment that people and nature can thrive in together.

Capacity Building across GMDC

One-day workshop aimed at enhancing awareness among Gujarat Mineral Development Corporation Ltd. (GMDC) officials was organized at GMDC's International Centre of Excellence in Mining Safety & Automation (iCEM), Dev Dholera featuring senior authorities from the **Central Ground Water Authority (CGWA)** and **Gujarat Pollution Control Board (GPCB)**.

Dr. Ratikanta Nayak, Regional Director (WCR, Ahmedabad), CGWA, along with a team of senior scientists, led an insightful session on statutory guidelines on groundwater abstraction norms, NOC procedures, and monitoring protocols. Their session emphasized the importance of direct regulatory engagement in fostering responsible mining practices and strengthening environmental governance.

GPCB's session was spearheaded by **Shri Vikas Panot DEE, IT Cell GPCB Gandhinagar**, who showcased the XGN 2.0 portal. This demonstration highlighted the streamlined processes for online submissions, compliance tracking, and offered practical solutions to common industry challenges.

The workshop also featured a dedicated segment by **Ernst & Young (EY) on Business Responsibility and Sustainability Reporting (BRSR)**. EY experts provided a comprehensive overview of the BRSR framework, emphasizing its ESG linkage, disclosure requirements, gap analysis in data management, and documents needed for third-party assurance. This segment aimed to equip teams with best practices for reliable and transparent sustainability reporting.

Senior GMDC officials, including **Sh. Swagat Ray, GM (PP&D)/Tech-IV**, and **Sh. Chirag Shah, GM (Environment)**, reaffirmed GMDC's commitment to transparency, regulatory compliance, and sustainable resource management. The event showcased the collaborative efforts of **CGWA, GPCB, and iCEM** in advancing environmental stewardship across Gujarat's mining sector.

Employee Engagement:

On the occasion of World First Aid Day 2025, GMDC was recognised by the Indian Red Cross Society at the State-Level Felicitation Programme held at Red Cross Bhavan, Ahmedabad. The recognition was awarded for the First Aid Training programmes conducted through iCEM – International Centre of Excellence in Mining Safety and Automation for employees across GMDC’s projects. This acknowledgment underscores GMDC’s ongoing efforts towards promoting workplace safety, employee well-being, and emergency preparedness.

Employee Engagement:

GMDC had organized a one day tour to Environment & Sustainability Institute to encourage employee engagement to focus on environmental sanitation, water, hygiene, rural & urban sanitation, health, motivation & community participation. The Institute is an NGO, operating since 1985, under the mother NGO Safai Vidyalaya. It combines training, education, design & demonstration of sustainable living.
